

## **Topic Area: Environmental Health**

EH-1: Reduce the number of unhealthful days throughout the state, as determined by the Air Quality Index

Target:	0 days
Baseline: (Year)	5 days (2010)
Data source:	Air Radiation Monitoring System, New Jersey Department of Environmental Protection

EH-2: Increase the percentage of homes in New Jersey that have ever been tested for radon

Target:	35.0 percent
Baseline:	25.3 percent (2010)
Data source:	RADON Database, New Jersey Department of Environmental Protection

EH-3: Increase the percentage of homes testing equal to or greater than 4 picocuries per liter of air that have been mitigated

Target:	50.0 percent
Baseline:	43.6 percent (2010)
Data source:	RADON Database, New Jersey Department of Environmental Protection

EH-4: Maintain or increase the percentage of community water systems in compliance with all current state and federal drinking water requirements for water quality

EH-4a: Chemical standard

Target:	97 percent
Baseline:	97 percent (2010)
Data source:	Safe Drinking Water Information System, New Jersey Department of Environmental Protection

#### EH-4b: Radiological standard

Target:	98 percent
Baseline:	98 percent (2010)
Data source:	Safe Drinking Water Information System, New Jersey Department of Environmental Protection

#### EH-4c: Microbiological standard

Target:	97 percent
Baseline:	97 percent (2010)
Data source:	Safe Drinking Water Information System, New Jersey Department of Environmental Protection

#### EH-5: Reduce the number of beach closings due to elevated bacteriological levels

Target:	30 closings
Baseline:	48.3 closings (2000-2010 annual average)
Data source:	New Jersey Beach Monitoring System, New Jersey Department of Environmental Protection
